

Study #1:

Arrestee Hits to Violent Crimes: Qualifying Offenses for DNA Collection

- The following eight slides illustrate data related to a 2012 DOJ survey of 100 cases (as of December 5, 2012) where an arrestee was linked by his or her DNA booking sample to an unsolved murder, rape, or robbery (“violent crimes”). This survey focuses on cases where the qualifying arrest occurred after January 1, 2009, and appears to be the first event for which the offender could have been collected.

Arrestee Qualifying Offenses for Hits to Murder, Rape and Robbery

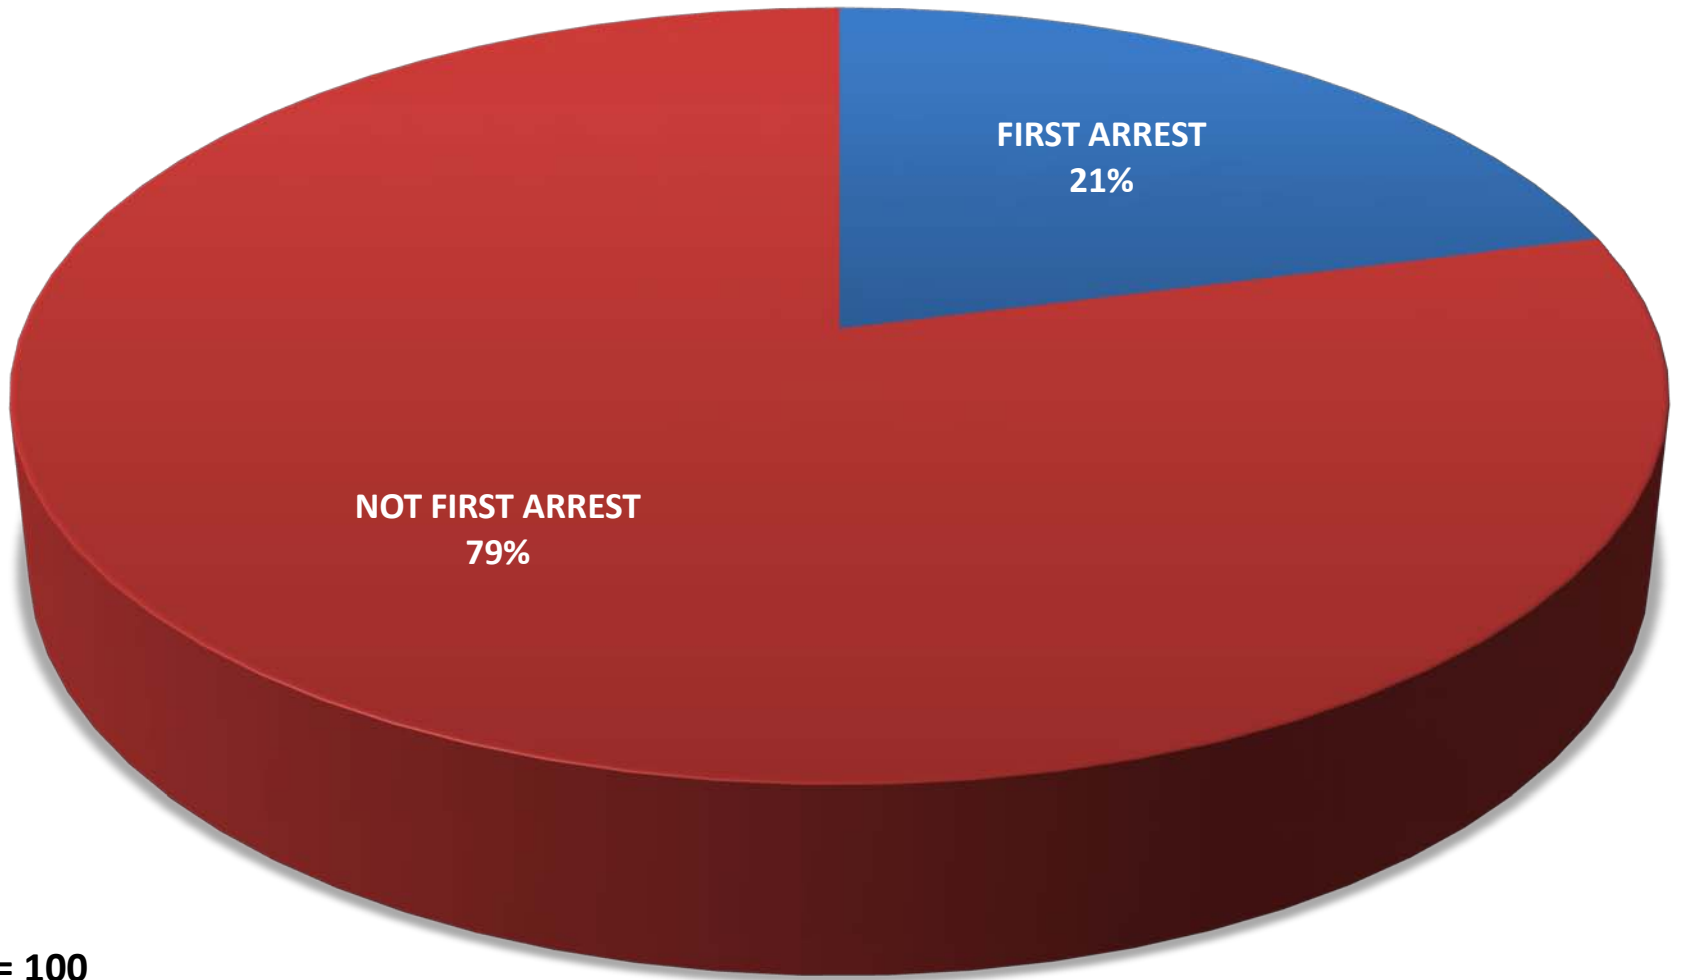

From a sample of 100 cases, as of December 4, 2012

- This chart replaced a prior chart appearing on the State of California Office of the Attorney General's Website where N=96

Arrestee Hits

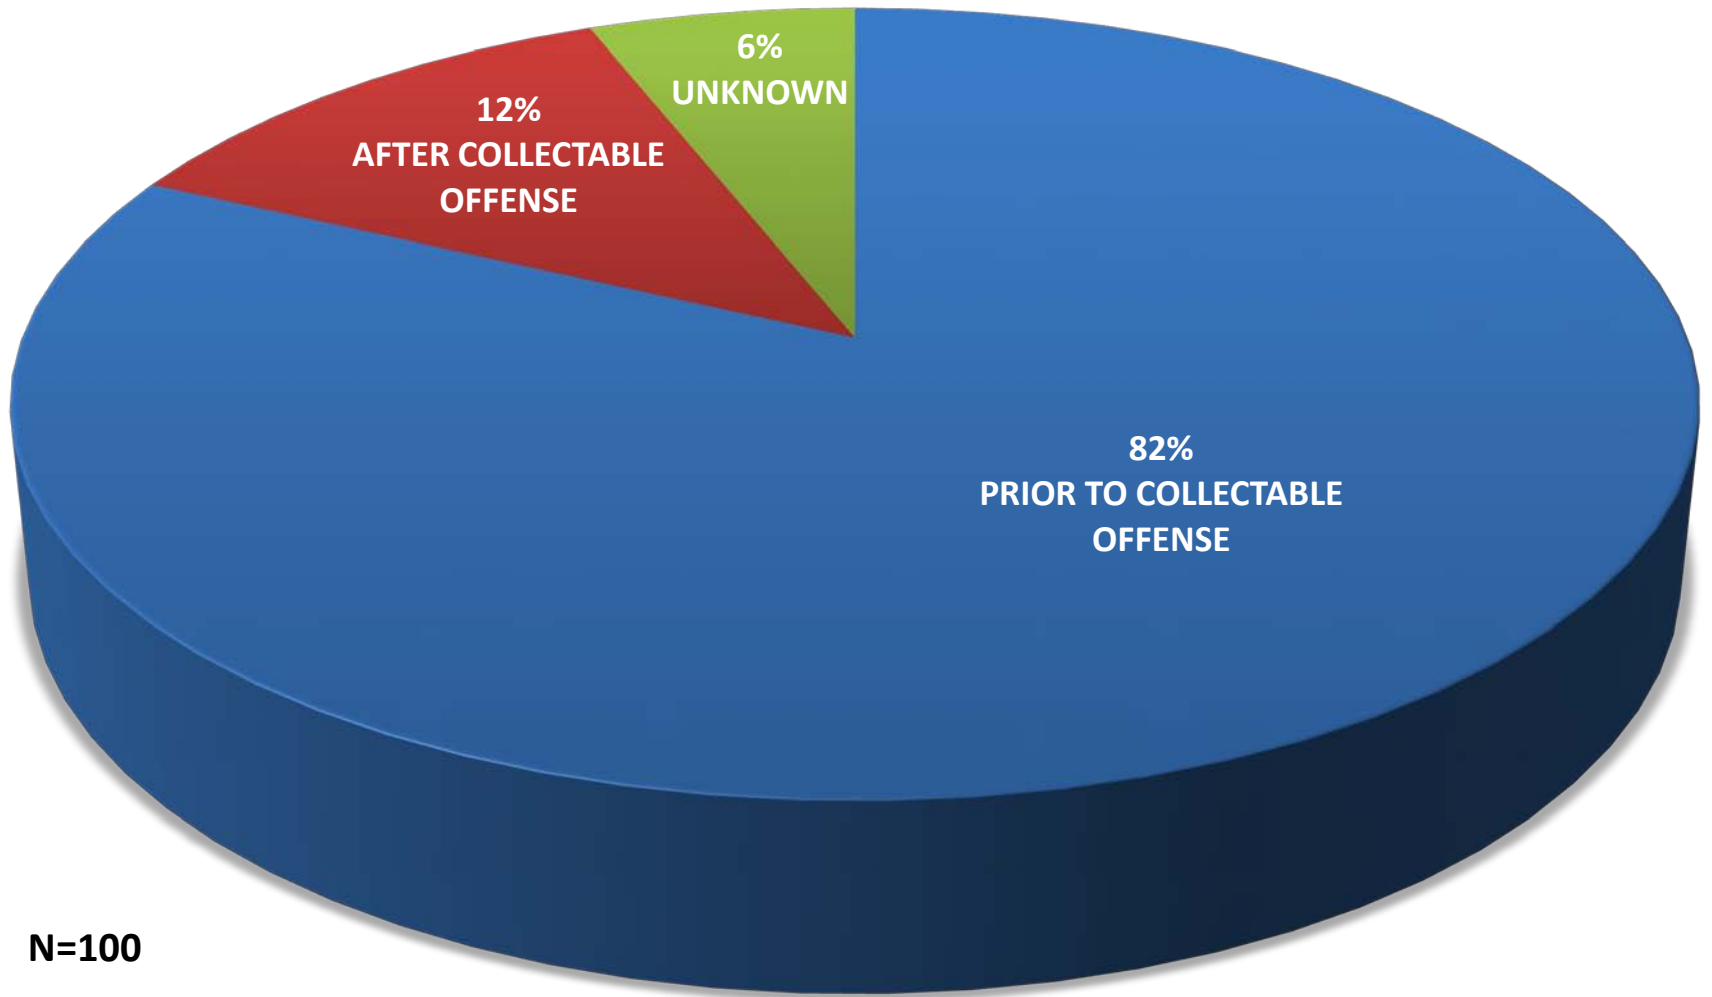

Percentage of Cases Where Qualifying Arrest was Not the First Arrest on RAP Sheet

N = 100

From a sample of 100 cases, as of December 4, 2012

Percentage of Arrestees that Committed Rape, Robbery, Murder Prior to Collectable Offense

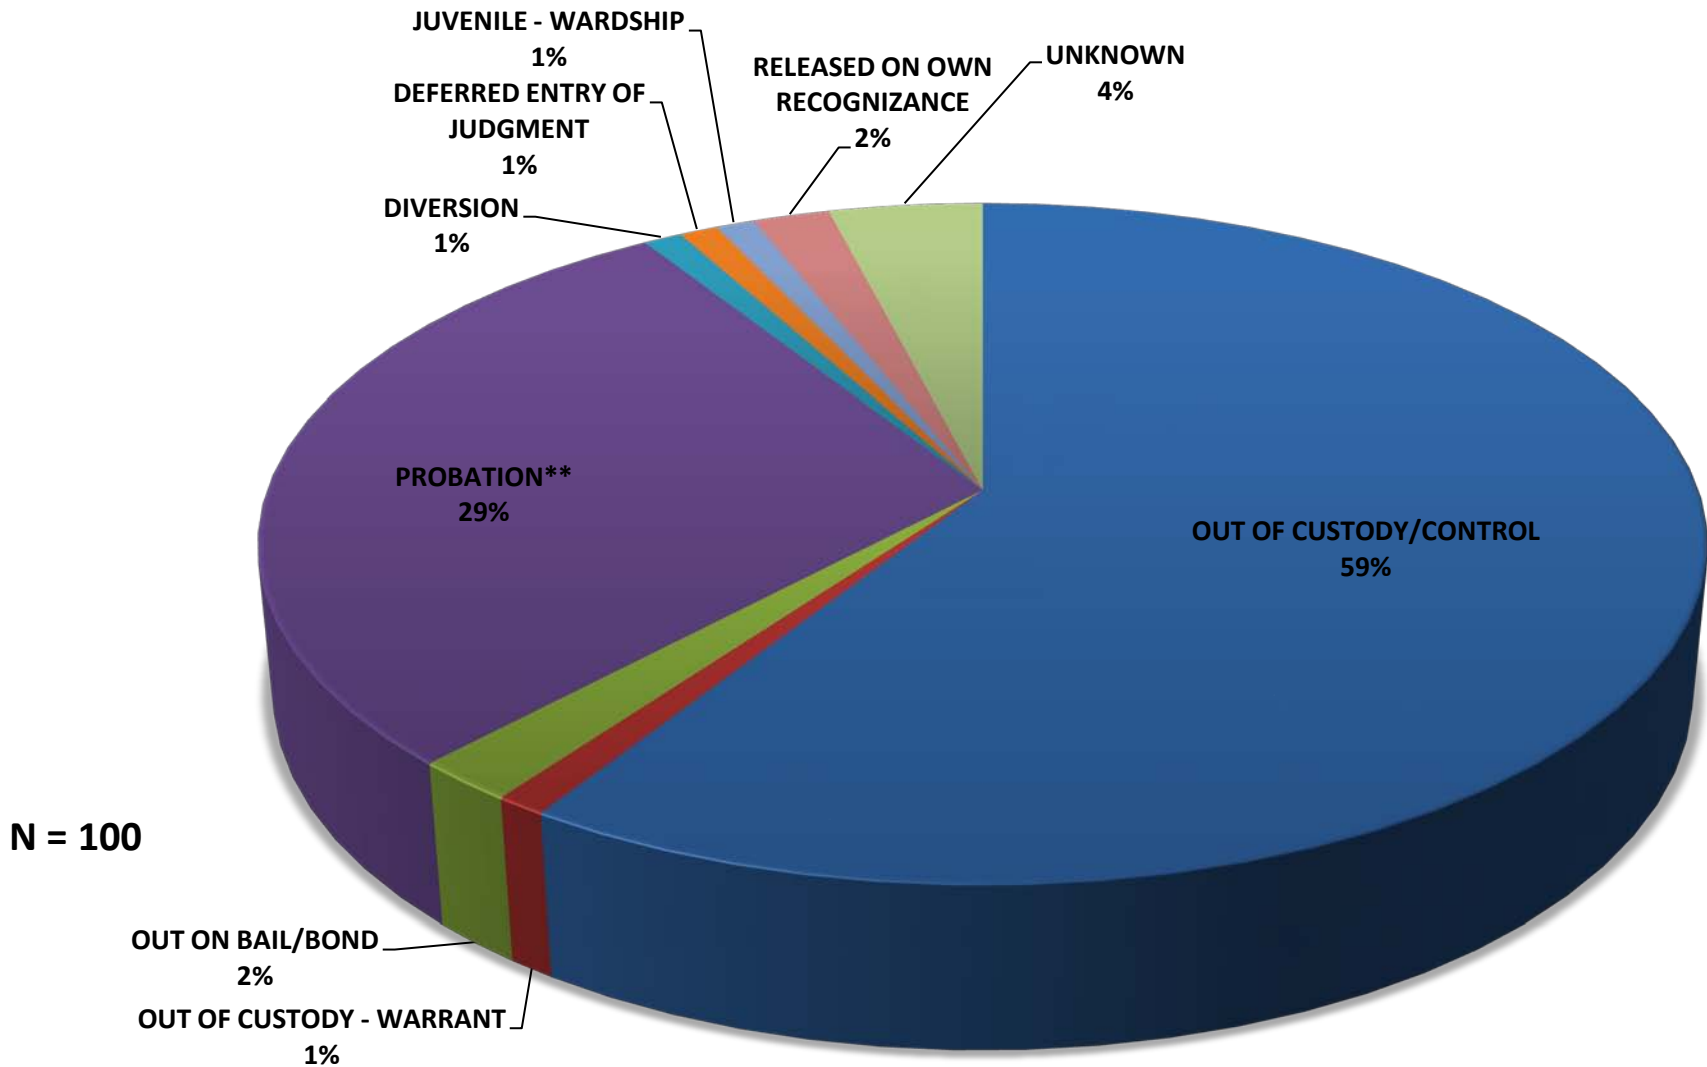

N=100

From a sample of 100 cases, as of December 4, 2012

Arrestee Hits

Offender Status at Time of Rape, Robbery, Murder*

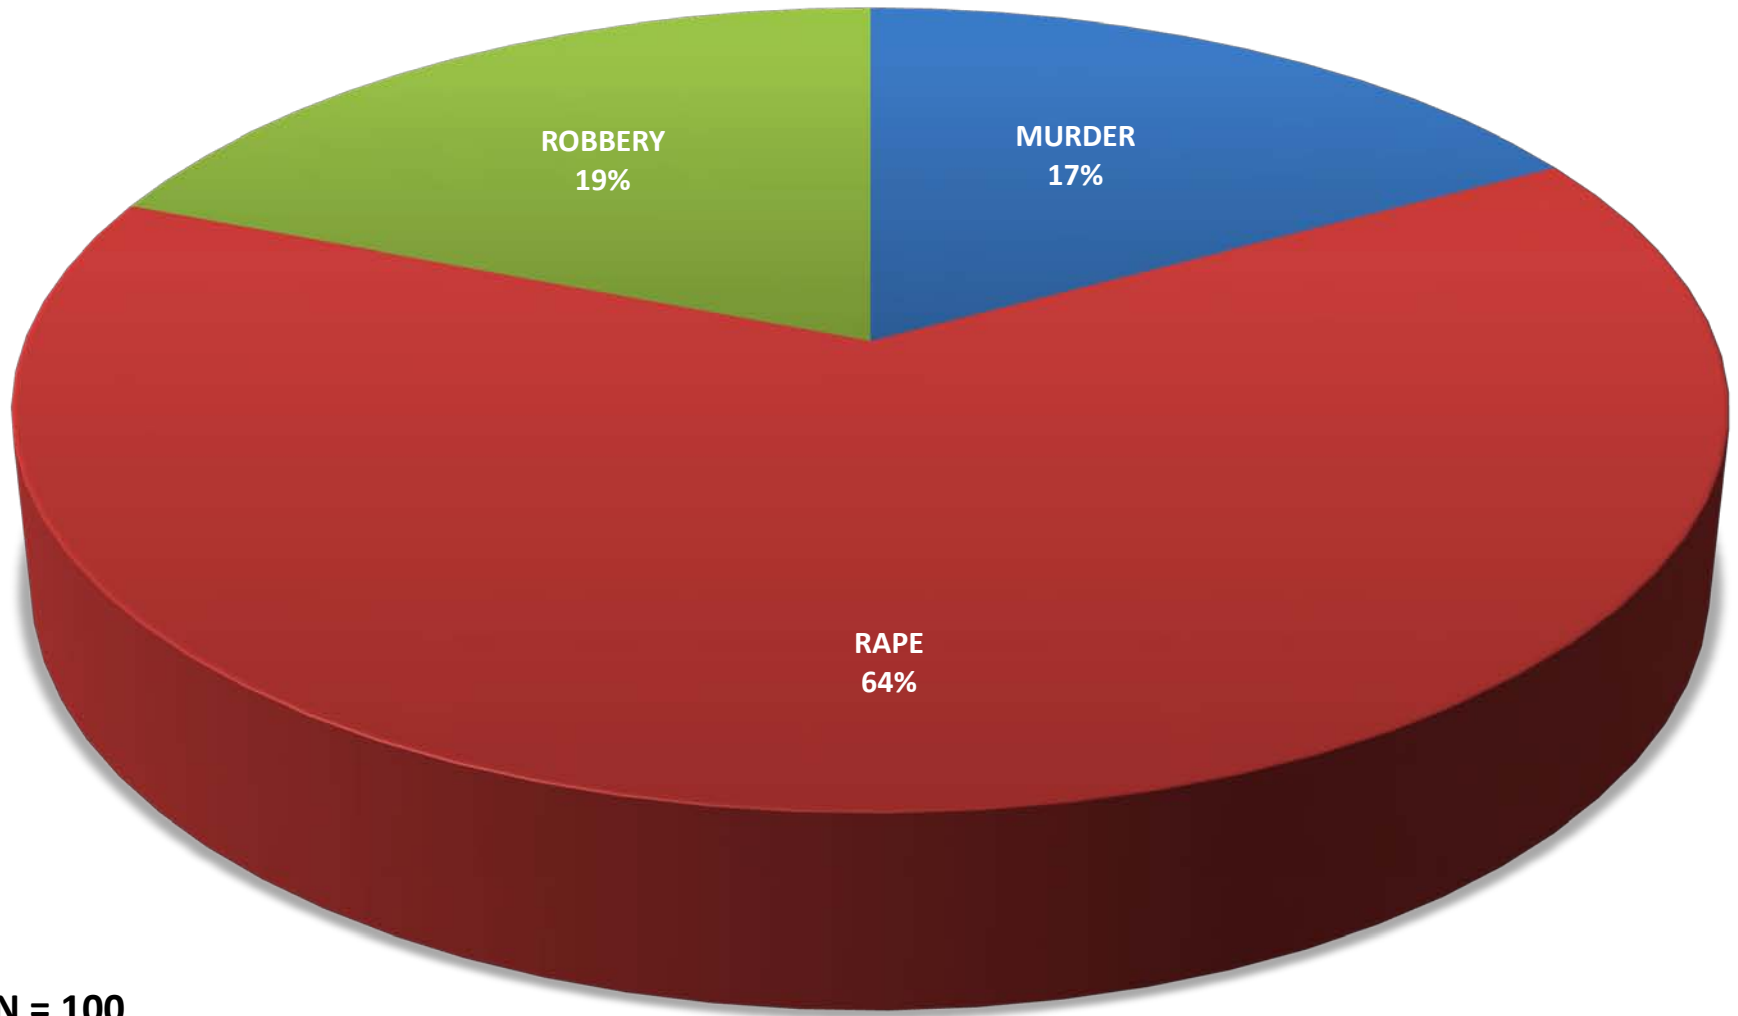

* 89% of individuals committed the Rape, Robbery, Murder prior to committing their collectable offense

** 100% of individuals on probation were on misdemeanor probation

From a sample of 100 cases, as of December 4, 2012

Arrestee Hits

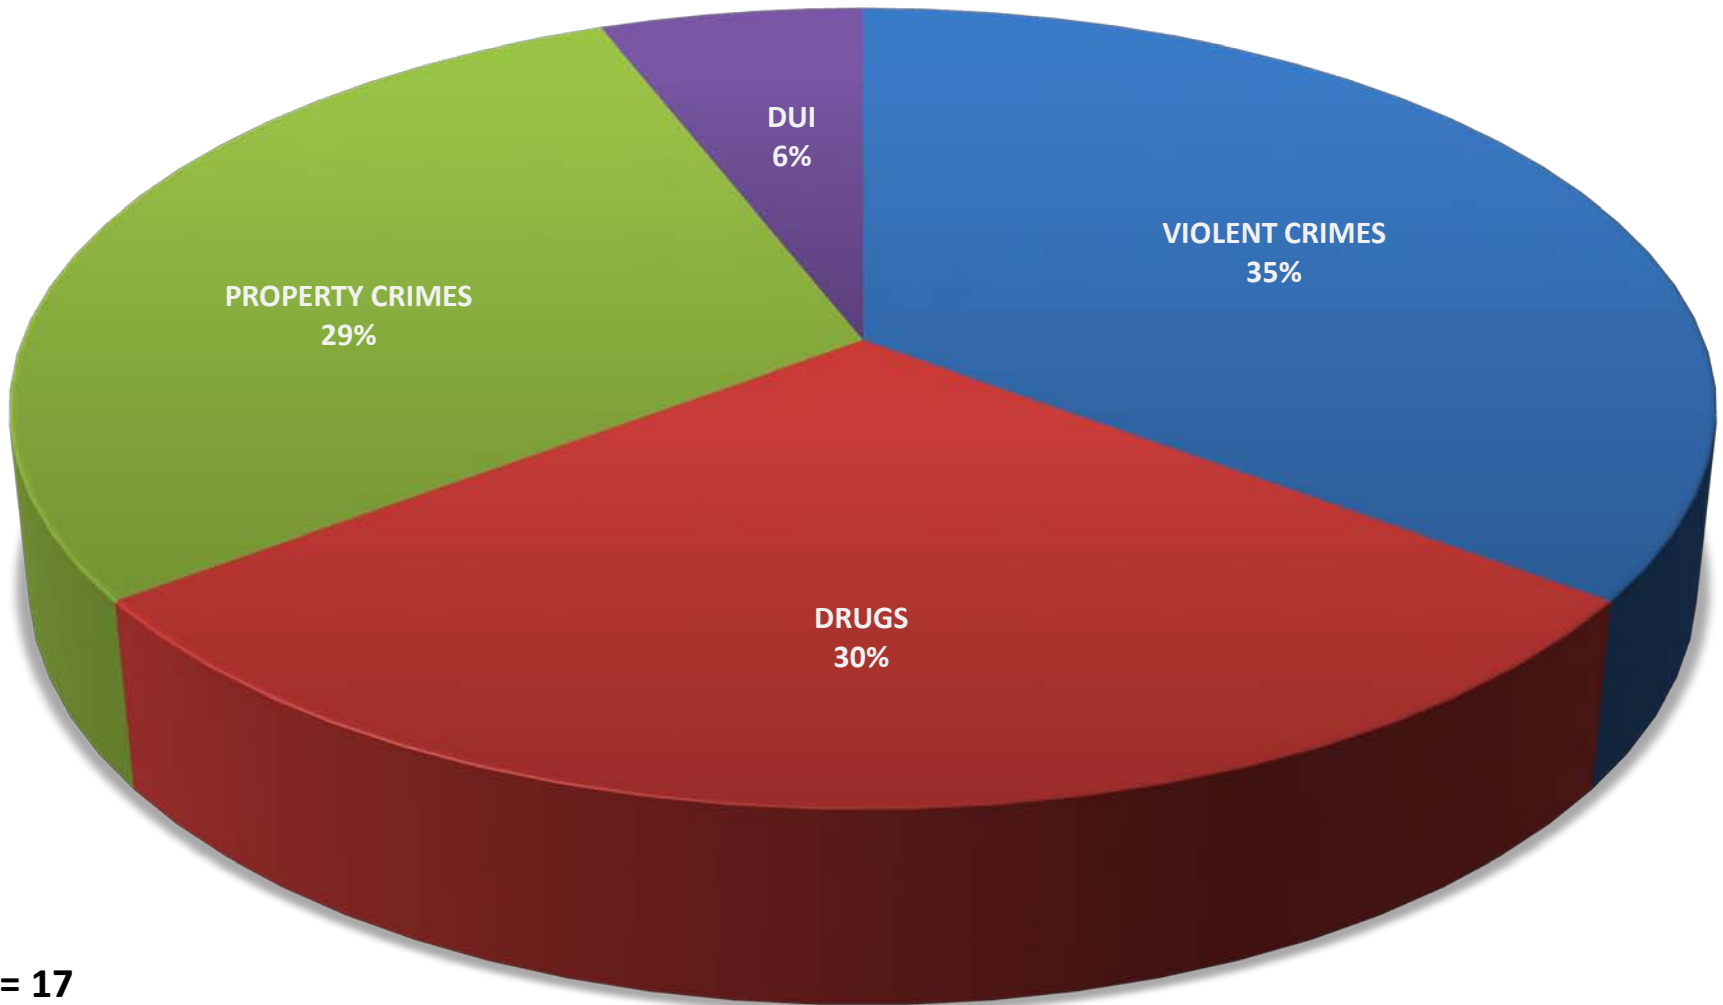

Breakdown by Rape, Robbery, Murder

N = 100

From a sample of 100 cases, as of December 4, 2012

Arrestee Qualifying Offenses for Hits to Murder

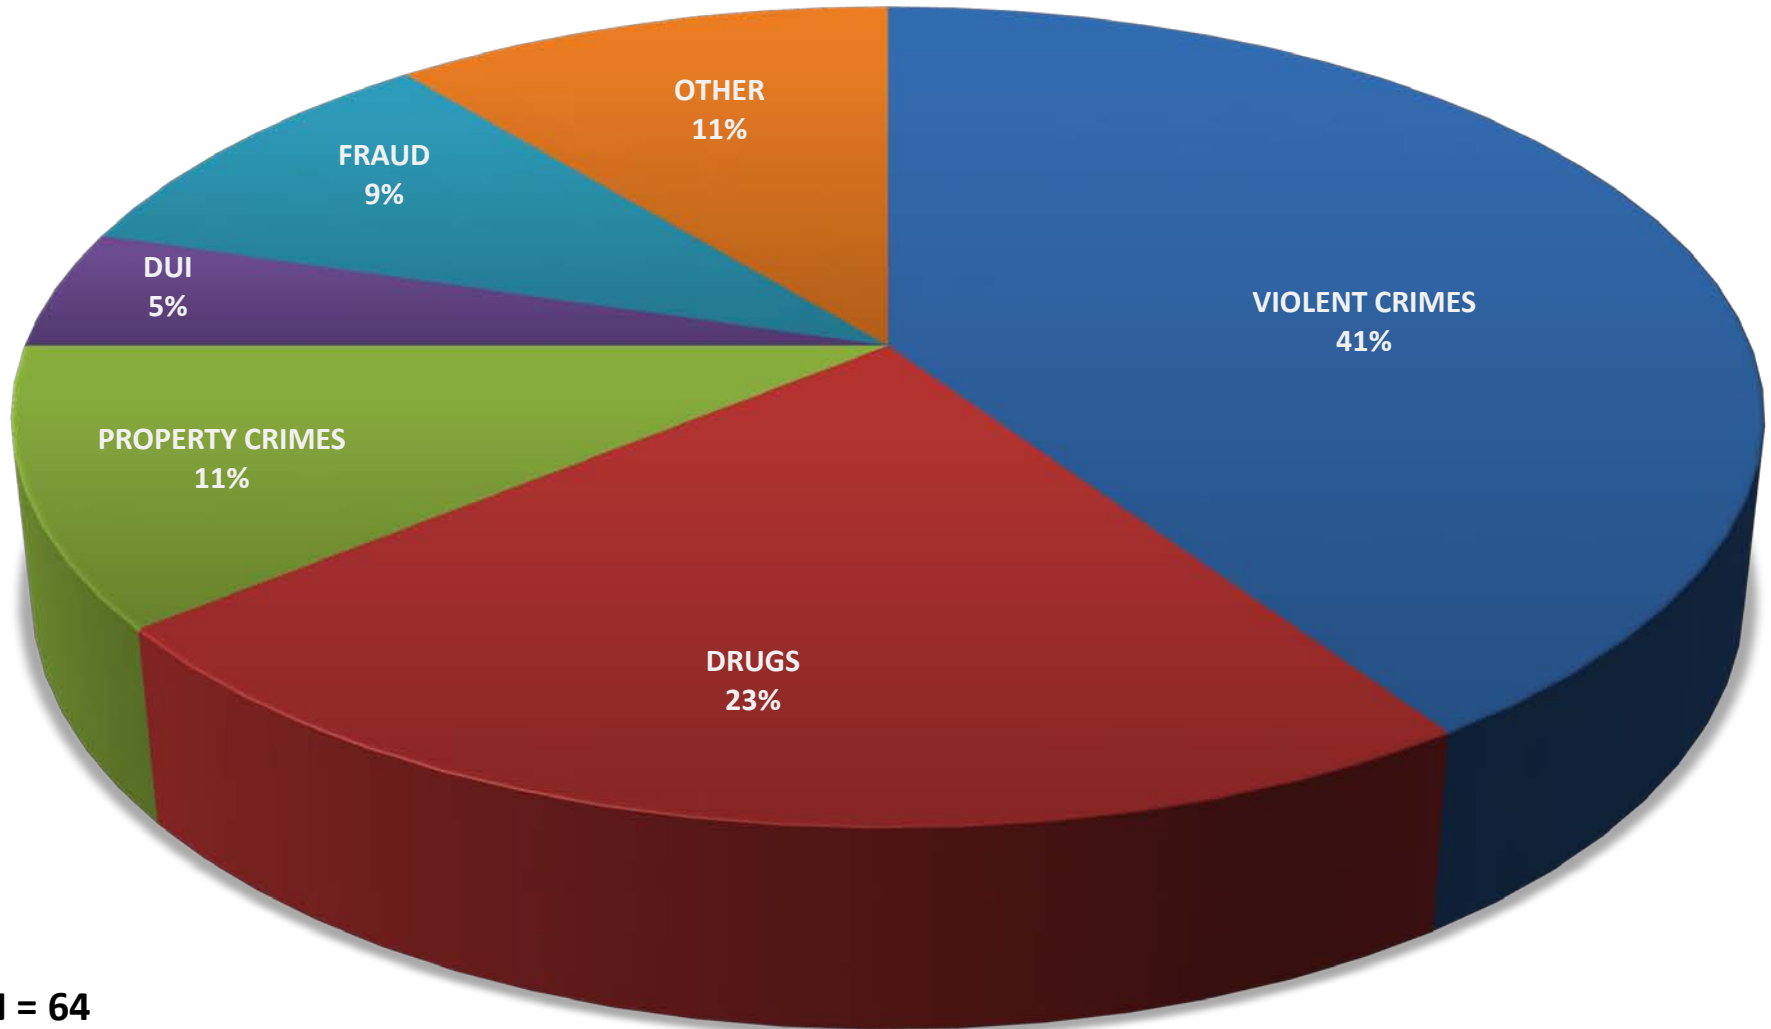

N = 17

From a sample of 100 cases, as of December 4, 2012

- This chart replaced a prior chart appearing on the State of California Office of the Attorney General's Website where N=16

Arrestee Qualifying Offenses for Hits to Rape

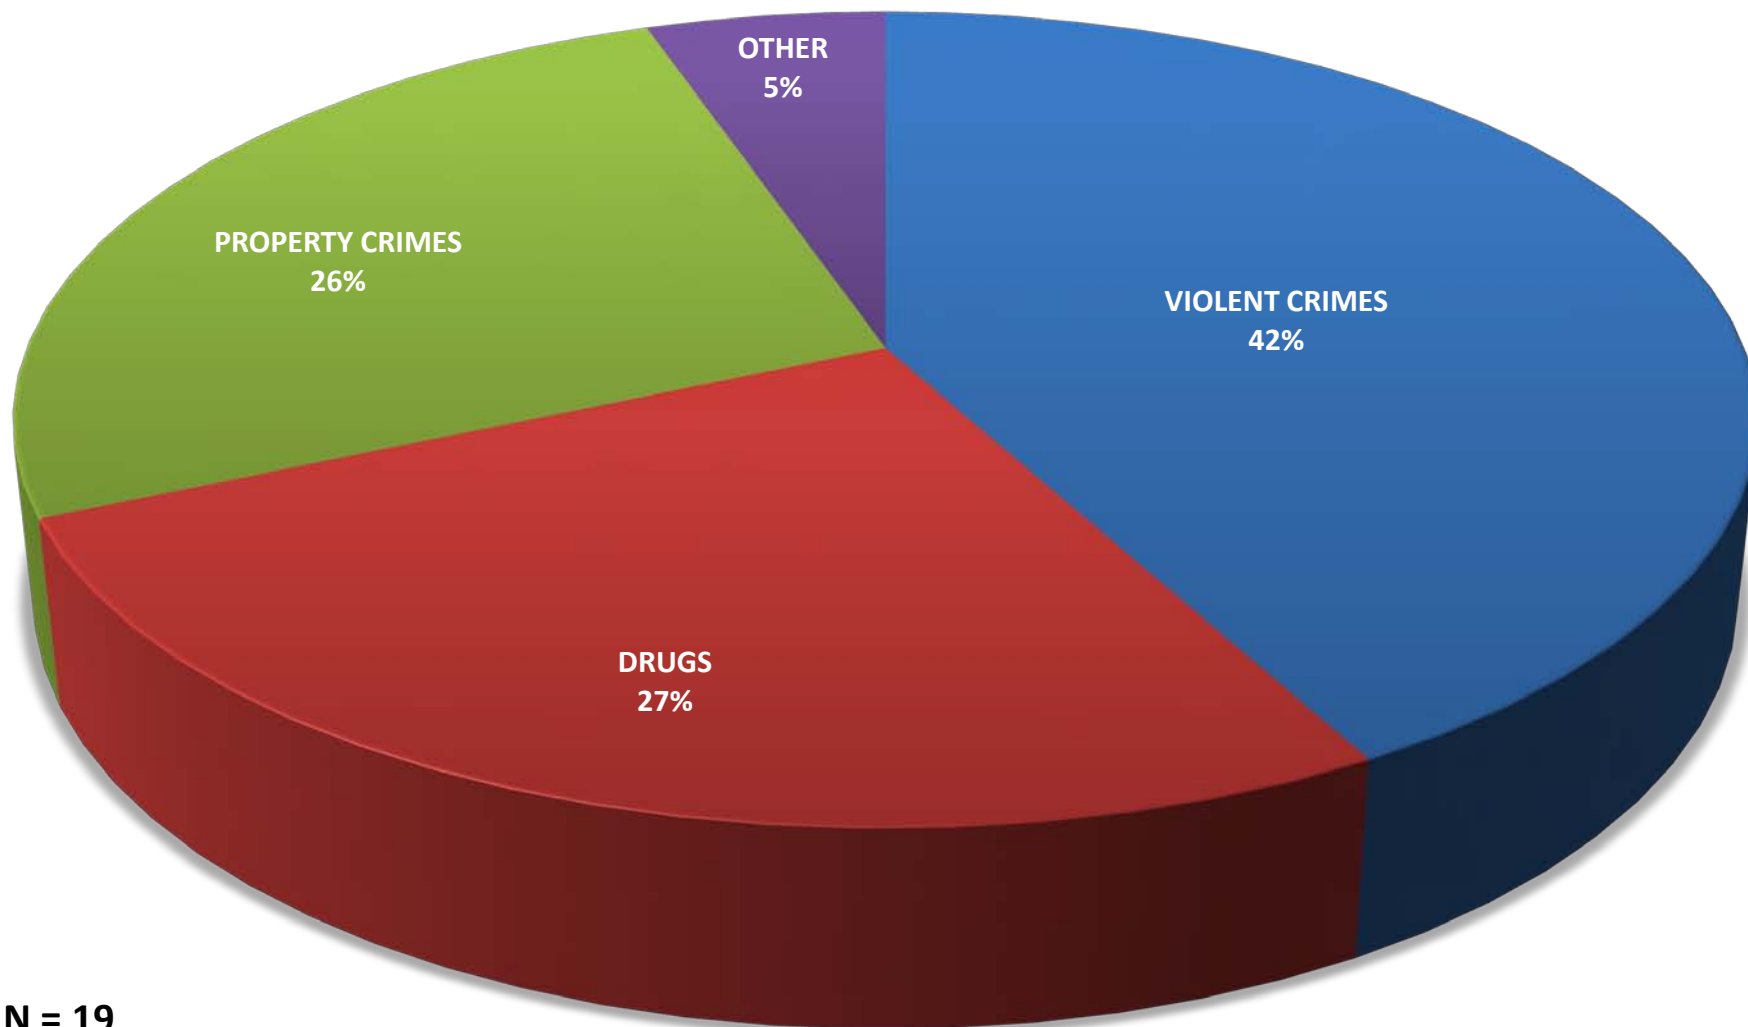

N = 64

From a sample of 100 cases, as of December 4, 2012

- This chart replaced a prior chart appearing on the State of California Office of the Attorney General's Website where N=60

Arrestee Qualifying Offenses for Hits to Robbery

N = 19

From a sample of 100 cases, as of December 4, 2012

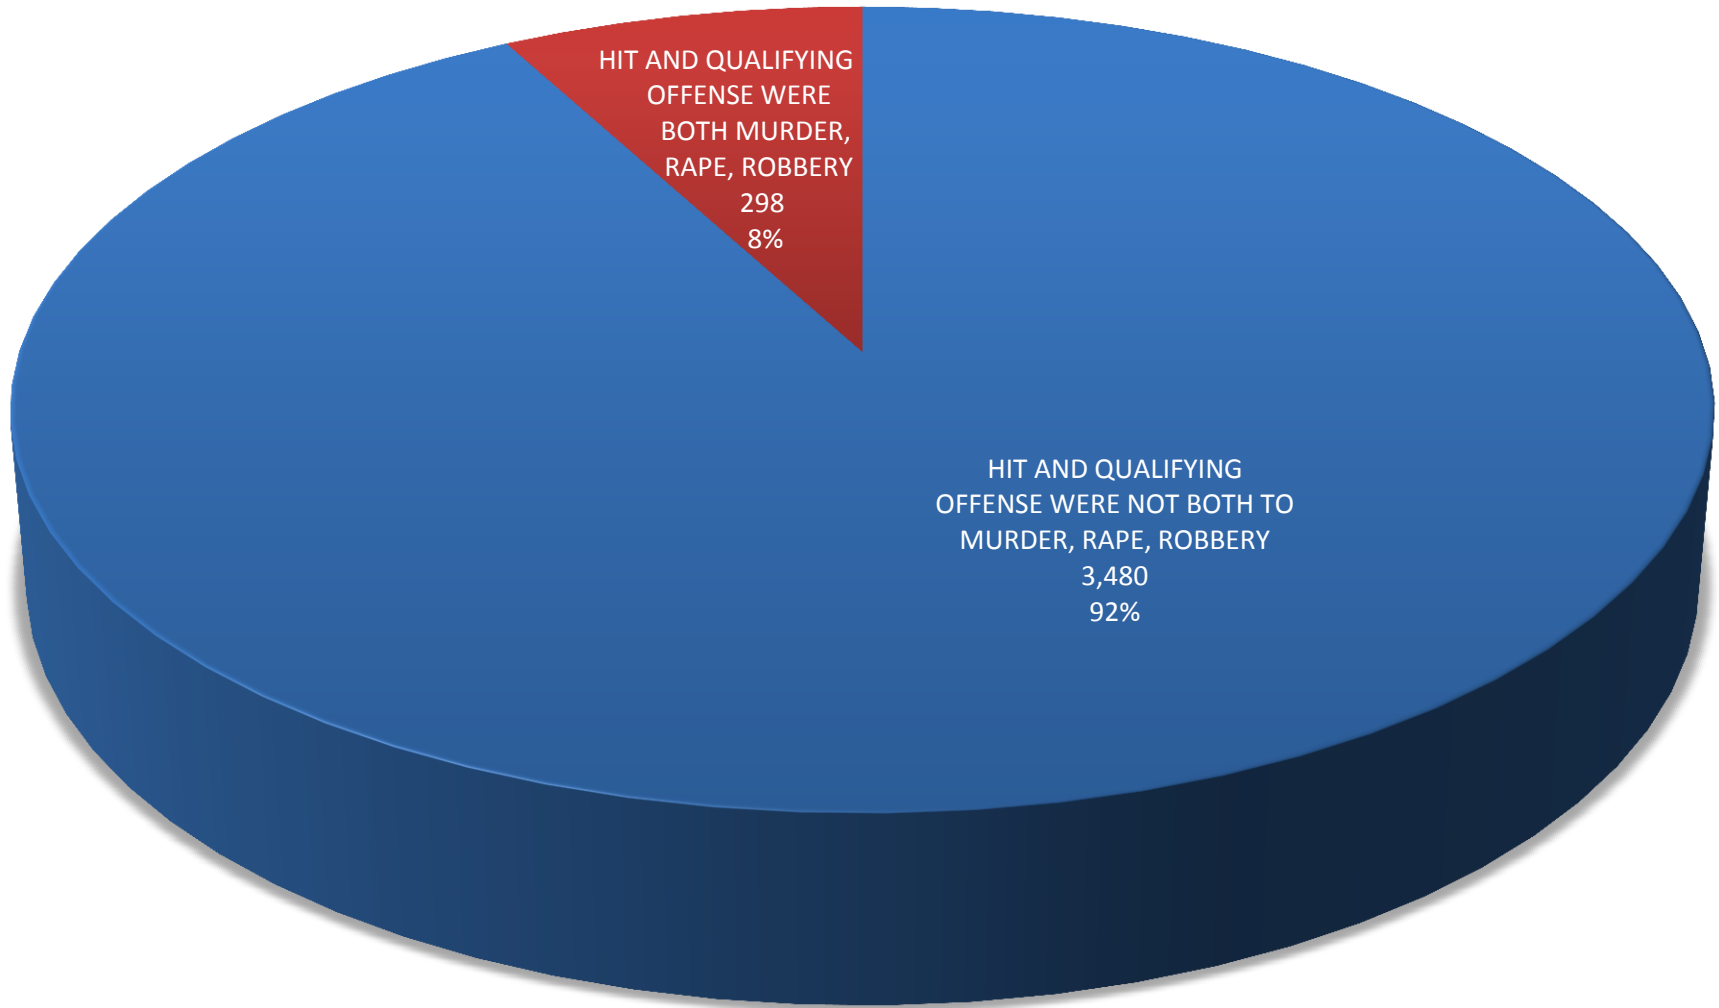

- This chart replaced a prior chart appearing on the State of California Office of the Attorney General's Website where N=20

Study #2: Arrestee Hits to Murder, Rape, & Robbery: Qualifying Offenses for DNA Collection

- The following slide illustrates the relationship between the arrestee qualifying offense and the crime solved in a DOJ survey of 3,778 cases (as of September 30, 2013) where an arrestee was linked by his or her DNA booking sample to an unsolved murder, rape, or robbery. This survey focuses on cases where the qualifying adult felony arrest occurred after January 1, 2009.

Arrestee Hits – Study #2

Qualifying Offenses for CA DNA Hits to Murders, Rapes, or Robberies *

Data is as of September 30, 2013

*This study includes 3,778 arrestee hits where the arrestee collection was on or after January 1, 2009 and the qualifying offense underlying the collection and the type of crime hit were both known. Note that , unlike Study #1, the arrestee’s prior criminal history was not a study parameter.
