# Preliminary Report

## CRIME in 2004 January through September

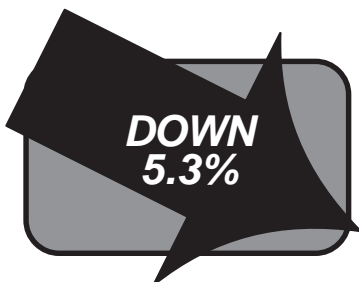

This report compares preliminary crime counts for January through September 2004 with final counts for the same period in 2003 for California law enforcement jurisdictions serving populations of 100,000 or more. The 79 jurisdictions which met this criterion in 2003 and 2004 account for approximately 65 percent of the crimes reported in the state.

Law enforcement jurisdictions are grouped into three categories:

- Police departments (provide law enforcement services to cities).
- Sheriff's departments (provide law enforcement services to unincorporated areas<sup>1</sup> within counties).
- Contract cities (cities that contract for law enforcement services, usually with a sheriff's department, rather than maintain their own police force).

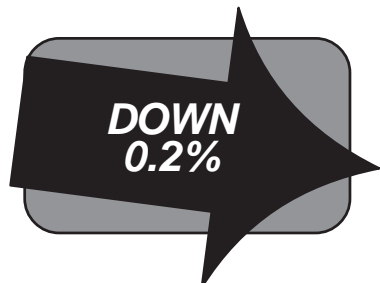

The 2004 crime data used in this report are preliminary and are subject to change. It should also be noted that crime rates are not used in this report but are included in the annual *Crime in California* publication.

Notes: A dash indicates one or more of the following: 1) data are not available or 2) percent changes are not calculated because of incomplete data or because the base number is less than 50.

This report includes data submitted to the Criminal Justice Statistics Center by the cutoff date of December 3, 2004. *actual* offenses reported (unfounded crime counts are not included). Sheriff department crime counts do not include contract cities that report under their own National Crime Information Center number. The California Highway Patrol reports motor vehicle theft for some sheriff's departments; therefore, sheriff department counts for this category may not reflect all reported crime counts reflect the number of

<sup>1</sup> In 2003, larceny-theft over \$400 was included in the property crime category to give a more representative depiction of crime in California.

<sup>2</sup> The Oakland, Sacramento and Yuba City Police Departments were unable to provide crime data for the full nine-month period due to problems with their records management systems. Therefore, to maintain comparability of the 2003 data with the 2004 data, available counts for these agencies are shown but not included in the subtotals or total jurisdiction counts.

<sup>3</sup> The Santa Clara County Sheriff's Department was removed from this report since its population dropped below 100,000.

<sup>4</sup> The Sonoma County Sheriff's Department's data for 2003 were under-reported due to the implementation of a new countywide records management system. Therefore, to maintain comparability of the 2003 data with the 2004 data, available counts for this agency are shown but not included in the subtotals or total jurisdiction counts.
